Capital Budget 2017/18 And Capital Programme 2018/19 Onwards

1. Purpose of report

- 1.1 To agree the latest Capital Budget 2017/18 and the Capital Programme for the financial year 2018/19 onwards.

2. Outcomes

- 2.1 The Council's latest Capital Budget 2017/18 and the Capital Programme 2018/19 onwards.
- 2.2 A Capital Programme that supports the achievement of the Council's corporate objectives.

3. Recommendations

- 3.1 That the latest Capital Budget for 2017/18 and the Capital Programme for 2018/19 onwards be agreed, subject to the confirmation of disabled facilities grant at the levels assumed.
- 3.2 That the financial implications of the Capital Budget and future Capital Programme, following the third quarter review (April to end December 2017), be reflected in the draft Revenue Estimates which will be considered by Cabinet at their meeting on the 14 February 2018 and be subject to approval by Council at the meeting on the 8 March 2018.

4. Background

- 4.1 Previously, credit approvals from central government set the limit of a local authority's long-term borrowing, and attracted Revenue Support Grant towards the financing costs of loans such as interest and principal repayments. With the Prudential Code, however, the local authority is free to make its own borrowing decisions according to what it can afford.

- 4.2** Central government support for borrowing through Revenue Support Grant was replaced back in 2006/07 by capital grant. The Council received an allocation of £1,563,469 for Disabled Facilities Grants (DFGs) in 2017/18 from the Better Care Fund provided by the Department of Health via Lancashire County Council who act as the accountable body. The aim of the Better Care Fund is to bring about integration of health and social care and plans for use of the pooled monies must be signed off by the Health and Wellbeing Board. The Council has been notified at the end of 2017 of an additional £153,640 to fund DFGs and social care capital projects. The Council has not yet been notified of the 2018/19 allocation but £1,563,469 has been assumed at this stage. The Council has also assumed a budget of £20,000 per annum for 2018/19 to 2020/21 for the remaining three years of a five year programme allocated and funded by the Environment Agency for the Cell Eleven (Coastal Monitoring). Formal approval is now confirmed on an annual basis with 2018/19 expected in April 2018. The full programme has been included on the basis that the previous five year programme was approved in full in line with the initial allocation.
- 4.3** Funding for the Rossall Coast Protection Scheme was confirmed by the Environment Agency 14 October 2013 and is estimated at £63.2m. Latest projections show the revised forecast including contingency elements to be £61.25m.
- 4.4** The council has also been awarded a £30,000 grant from the Lancashire Environmental Fund to progress a new scheme at King Georges Playing Fields. A Portfolio Holder Report is awaiting a decision later this month but approval has been assumed for the purpose of this report.

5. Key issues and proposals

- 5.1** The latest detailed Capital Budget for 2017/18 (including the method of funding for each scheme) is attached at Appendix 1 and reflects the update from spending officers following the end of the third quarter review which is also reported within the TEN Performance Management System. An explanation of the amendments resulting from the 3rd quarter review can be seen at Appendix 2a and 2b.
- 5.2** Capital schemes are assessed in accordance with the Council's priorities as reflected in the Business Plan and the criteria specified in the Medium Term Financial Plan. The building maintenance condition surveys indicate a total requirement over the next three years of an estimated £2.9m, including a number of investment schemes and projects where further work is required before a recommendation can be made to proceed. The limited capital funds that are currently available have resulted in no new capital growth bids being submitted for consideration by Overview and Scrutiny in 2018/19. This means that the principle behind the bid agreed by the committee at their meeting 7 December 2015 will continue to be supported and as it was then noted, the projects listed were simply the current priorities, which have varied over time. As

such, an updated list of the 2018/19 priorities was taken to Overview and Scrutiny on 8 January 2018 for consideration. The total estimated requirement of £2.9m is also subject to capital receipts being received.

- 5.3 The detailed Capital Programme 2018/19 onwards, together with the method of funding for each scheme, is attached at Appendix 3 and includes ongoing expenditure from previous approvals.
- 5.4 The summary Capital Programme 2017/18 to 2021/22 is attached at Appendix 4.
- 5.5 The following table summarises expenditure by Portfolio and the methods of financing capital expenditure in 2017/18 and 2018/19.

5.7 A key requirement of the MTFP is the long term planning of capital resources and the Capital Programme. The Prudential Code requires chief finance officers to have full regard to affordability when making recommendations about the local authority's future capital programme. Such consideration includes the level of long-term revenue commitments. Indeed, in considering the affordability of its capital plans, the authority is required to consider all of the resources available to it, including those estimated for the future together with the totality of its capital plans and revenue forecasts for the forthcoming year and the following two years. With effect from the 2007/08 financial year, the Council became reliant on borrowing to support capital expenditure. Long term borrowing totalling £3.552m at 31 March 2013 has been drawn down and this value is used to calculate the Minimum Revenue Provision (MRP) which must be reflected in the revenue estimates.

5.8 The arrangements for calculating MRP, which were introduced during 2007/08, require the period over which MRP is charged to be aligned with the estimated life of the asset. This could result in an increased MRP charge if expenditure, such as that on playground equipment, is spread over say 15 years and the Council has therefore chosen to arrange its MRP policy as to ensure that assets or other expenditure having the shortest "charge" life are determined as being financed from capital receipts or other available resources. The extent of the Council's borrowing obviously has an impact on the revenue account in the form of debt charges. An estimate of the debt charges and associated interest payments is reflected in the table below for the 2017/18 financial year with costs not falling further until 2024/25 when the 15 year lifespan assets drop out of the MRP calculation:

Year	Minimum Revenue Provision	Interest (@ 4.41% and 4.48%)	Total
	£	£	£
2017/18	95,559	68,830	164,389

- 5.9** In an effort to reduce the Council's reliance on borrowing, and following concerns about the sustainability of continuing to borrow in the current economic climate, a Capital Investment Reserve was created as part of the 2009/10 closure of accounts. This funding will be used to meet known commitments, including the repair and maintenance of Council assets and provide resources for future capital investment. The Capital Investment Reserve is reviewed as part of the annual budget preparation, the updating of the MTFP and as part of the closure of accounts process with a view to minimising ongoing revenue costs. After funding existing commitments and with no new capital growth bids for 2018/19, the projected balance on the Capital Investment Reserve at 31 March 2019 is expected to be £996,771. As the capital investment for the health and fitness equipment at Poulton and Thornton Leisure Centres is recovered from the YMCA the reserve increases by £99,590 annually up to and including 2018/19 with £82,990 in the final year 2019/20.
- 5.10** An assessment of the risks associated with MTFP is carried out annually and includes the likelihood, severity and level of risk together with the risk management procedures in place to control and monitor them. Appendix 5 of the MTFP report which was considered by Cabinet 18 October 2017 lists the major risks associated with financial planning and the controls in place to alleviate the risks.
- 5.11** The Council's financial plans support the delivery of strategic plans for assets either through investment, disposals, rationalisation or more efficient asset use. Financial plans show how the financial gap between the need to invest in assets and the budget available will be filled over the long term (for example through prudential borrowing, rationalisation of assets, capital receipts, etc.). In order to avoid significant additional financial pressures, further capital disposals will be required to generate capital receipts to meet capital commitments.

Financial and legal implications	
Finance	The revenue implications of the proposed capital expenditure will be incorporated within the Council's Medium Term Financial Plan, which is subject to regular review. The draft Revenue Estimates will be considered by Cabinet at their meeting on the 14 February 2018 prior to being presented to Council at their meeting on 8 March.
Legal	None arising directly from the report.
