

General PPN conditions

1. Any outside area which is used for the consumption of alcohol shall cease to be so used at 11:00 hours. Signs shall be displayed in prominent positions warning customers that they will not be permitted to drink in the external areas after these times
2. There shall be no live entertainment, live music or recorded music to the external licensed area.
3. The designated premises supervisor or the personal licence holder for the premises who is supervising the sale or supply of alcohol at that time, shall not permit customers to congregate and consume alcohol sold or supplied by that premises in a public place within the immediate vicinity of the premises and in an area not so licensed for consumption to the annoyance or obstruction of others and shall prevent the removal of alcohol if it is intended for such a purpose.
4. Notices will be displayed at the entrance and exits advising customers to leave quietly.
5. The Licensee shall ensure that staff departing at night when the business has ceased trading, conduct themselves in such a manner to avoid disturbance to nearby residents.
6. All internal doors to any entrance / exit point, fire exit doors and external windows shall be closed during hours of any regulated entertainment except in the event of an emergency, save for the purposes of access and egress.
7. The volume of amplified sound used in connection with any regulated entertainment shall, at all times, be under the control of the Licence Holder or Management and the controlling mechanism shall be operated from a part of the premises inaccessible to the public.
8. Noise generated from any regulated entertainment in the form of live or recorded music, mechanical ventilation and refrigeration plant shall not be audible at premises within close proximity so as to cause a public nuisance.
9. The licence holder or his representative shall conduct regular assessments of the noise coming from the premises on every occasion the premises are used for regulated entertainment and shall take steps to reduce the level of noise where it is likely to cause a disturbance to local residents. A written record shall be made of those assessments in a log book kept for that purpose and shall include, the time and date of the checks, the person making them and the results including any remedial action.
10. No nuisance shall be caused by noise coming from the premises or vibration transmitted through the structure of the premises.
11. There shall be no emission from the premises of any offensive smells, which are likely to cause a nuisance.
12. No light from or on the premises and any other light under the control of the premises shall be provided where that light causes a nuisance to any nearby premises.

13. Frequent collection of glasses and bottles will be undertaken to ensure that empty containers do not accumulate in or around licensed premises.
14. Patrols will take place by members of staff, internally and externally, to limit any noise pollution when entertainment is being offered within the premises.
15. Organised outdoor music festivals are not permitted under the terms of this licence
16. There shall be provided at the premises containers for the storage and disposal of waste foods and other refuse from the premises. Those containers shall be constructed, maintained and located so that access to them by vermin and unauthorised persons is prevented and arrangements shall be made for the regular lawful disposal of their contents.
17. Refuse such as bottles shall be disposed of from the premises at a time when it is not likely to cause a disturbance to residents in the vicinity of the premises.
18. A tamper-proof noise-limiting device capable of setting limits for third octaves shall be fitted to the Sound system within the premises and all amplified music played at the premises must pass through this sound limiter at a level agreed by the Council's Environmental Health section. The noise limiter shall not be altered without prior agreement with the Council's Environmental Health section.

Music events/concerts

The conditions laid out below will only be applicable to Music events/Concerts being provided under the authority of this licence and will take precedence over the general prevention of public nuisance conditions.

1. No nuisance shall be caused by noise coming from the premises or by vibration transmitted through the structure of the premises.
2. There shall be no emission from the premises of any offensive smells, which are likely to cause a nuisance.
3. No light from or on the premises and any other light under the control of the premises shall be provided where that light causes a nuisance to any nearby premises.
4. No member of the audience shall be allowed within 3 metres of any loudspeaker, The sound pressure level for the front-of-house around mixer position will restrict the whole audience sound level exposure to below an event level of 107dB or C-weighted peak sound pressure levels to below 140dB.
5. Music Noise Levels (MNL) when assessed at the prediction stage or measured during sound checks or concerts should not exceed the background noise level by more than 15 dB(A) over a fifteen minute period 1metre from the façade of any noise sensitive premises prior to 23:00.
6. Where regulated entertainment is provided after 23:00, the music must not be audible within noise-sensitive premises with windows open in atypical manner for ventilation.

7. The control limits set at the mixer position shall be adequate to ensure that the low frequency Music Noise Level (MNL) in the 63Hz and 125Hz octave frequency bands shall not cause any increase in the real time simultaneous when compared with the existing equivalent $Leq(15min)(f)$ (63Hz and 125Hz) taken without the premises in operation. Measured not less than 1 metre from the façade of a noise sensitive premises (being premises where the occupants are likely to suffer nuisance from excessive noise), situated at least 2 km from the venue
8. The Music noise level should be measured using an integrating-averaging sound level meter with type 2 or better of BS6698. The Background noise level should be measured using a sound level meter complying with type 2 or better of BS5969. Time weighting F (fast response)
9. The Premises Licence Holder shall provide electronic sound limiters on the output amplifiers which can be pre-set to a given level, which level shall be reasonably determined from time to time by an authorised officer of the Licensing Authority;
10. At least four weeks prior to any event being carried on under the authority of this premises licence, the licensee shall appoint a suitably qualified and experienced noise control consultant, to the reasonable approval of the Licensing Authority. The noise control consultant shall liaise between all parties including the Licensee, Promoter, sound system supplier, sound engineer and the licensing authority etc. on all matters relating to noise control prior to and during the event.
11. If not already carried out, the noise control consultant shall carry out a survey to determine the background noise levels (as defined by the Code of Practice on Environmental Noise Control at Concerts) at eight locations around the venue representative of the noise sensitive premises likely to experience the largest increase in noise/highest noise level as a result of the concert. The information obtained from this survey shall be made available to the licensing authority four weeks prior to the event.
12. The appointed noise control consultant shall continually monitor noise levels at the sound mixer position and advise the sound engineer accordingly to ensure that the noise limits are not exceeded. The Licensing Authority shall have access to the results of the noise monitoring at all times.
13. The Premises Licence Holder or their representative shall ensure that the promoter, sound system supplier and all individual sound engineers are informed of the sound control limits and that any reasonable instructions from the noise control consultant regarding noise levels shall be implemented.
14. Internal rehearsals and sound checks are permitted only between the hours of 08:00 and 20:00.
15. A noise propagation test shall be undertaken at least four hours prior to any event that involves licensable activities being carried on under the authority of this premises licence in order to set appropriate control limits at the sound mixer position. The sound system shall be configured and operated in a similar manner as intended for the event. The sound source used for the test shall be similar in character to the music likely to be produced during the event.

16. Clear, legible and conspicuous notices shall be displayed at each public exit requesting patrons to avoid causing noise, nuisance or disturbance upon leaving the premises.
17. There will be a mobile telephone number which is designated as a number specifically for noise complaints. The mobile telephone which corresponds with said number will be attended to by a noise co-ordinator through the duration of the event.
18. Bins shall be placed at regular intervals along any route that patrons are likely to use for dispersal. Said bins will be removed no later than the day after the event.
19. There shall be links established with a taxi company to ensure that there are taxis available to take people away from the event throughout the duration of the event.
20. Within 24 hours from the end of an event that involves licensable activities being carried on under the authority of this premises licence, any loose debris or litter on the premises or in the immediate vicinity of the premises shall have been cleared.
21. During and after any event that involves licensable activities being carried on under the authority of this premises licence, waste will be stored in sealable pest proof containers and will be removed from the site by a suitably accredited agent.

Car/vehicle Shows

The conditions laid out below will be applicable in addition to the general Prevention of public nuisance which make part of this licence

- 1A) There shall be no nuisance caused by unnecessary usage of car horns or excessive usage of car horns.
- 2A) There shall be no nuisance caused by unnecessary revving of engines or excessive engine revving.
- 3A) There shall be no form of external amplification of sound. The only exemption to this condition will be the use of a PA system to deliver safety message/alerts only.
- 4A) During any event that involves licensable activities being carried on under the authority of this premises licence, there will be a mobile telephone number which is designated as a number specifically for noise complaints. The mobile telephone which corresponds with said number will be attended to by a noise coordinator through the duration of the event.
