Lead on and support natural flood management projects.	<span style="color: green;">G</span>

  

Measures	
Reduction in council carbon emissions	<span style="color: orange;">A</span>
Number of public electric charging points	<span style="color: red;">R</span>
Number of trees planted	<span style="color: green;">G</span>
% of household waste recycled	<span style="color: orange;">A</span>
Reduction in fly tipping reported	<span style="color: green;">G</span>

**Comments and issues regarding measures with a RED status**

**Total visits to town centres.** New data supplier (Huq Industries) procured Q2 2022. Updated data collection methods, plus town centre boundaries reviewed, hence discrepancy between figures from Q2 onwards and figures previously reported. Target set as figure from previous quarter.

**Number of domestic energy measures installed under Cosy Homes in Lancashire, via Green Homes Grants and other Government Schemes.** Only reporting red as data isn't available for Q4 yet for LAD2 and HUG and so the return doesn't include this data.

**Number of public electric charging points.** All 23 units have been installed but we are waiting for Electricity North West to make a connection to the mains supply – some have been given an expected connection date, while others are still awaiting one (Marine Hall, Civic Centre an Quail Holme Lane).
