Value for Money (VFM) Conclusion

- Good VFM is the optimal use of resources to achieve the intended outcomes. 'Optimal' means 'the most desirable possible given expressed or implied restrictions or constraints'. VFM is not about achieving the lowest initial price.
- The Council is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources.
- The Auditors have a responsibility to satisfy themselves that proper arrangements have been made having regard to relevant criteria specified by the NAO.
- They will plan their work based on consideration of the significant risks of giving a wrong conclusion; and will carry out as much work as is appropriate to enable them to give a safe conclusion on the arrangements to secure VFM.
